

# Sri Sarveshwari Times

Volume VI, Issue No.1

*On a starry evening at Upasana Hilltop Sanctuary, Babaji addressed the students who had gathered with the following:*

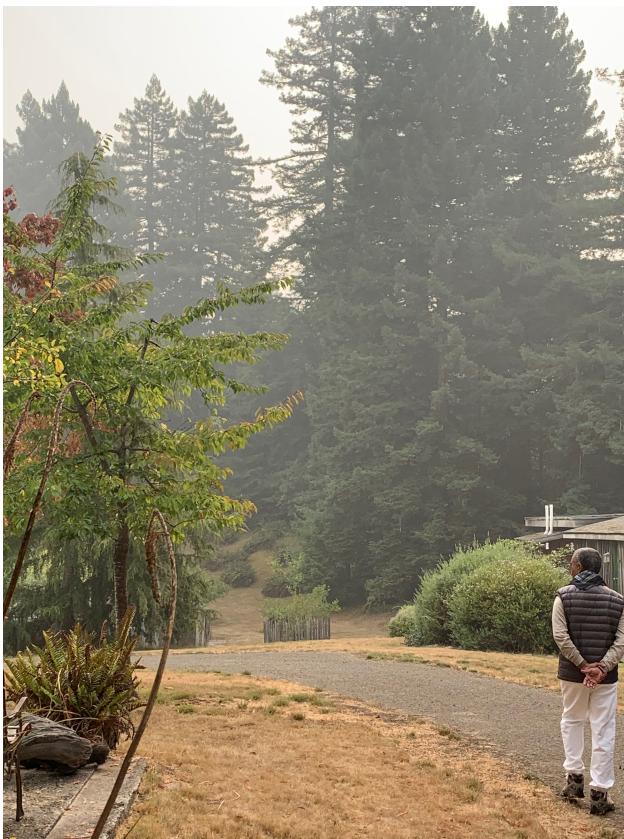

“The one for whom we have to do everything, if that entity disappears, then what will we do and for whom?”

~Aghoreshwar  
Bhagwan Ram

Who is the one for whom we have to do everything? It's our sense of "self". The identity that we are born into. That which we know as "me". We do everything for that self. We wake up, we go to sleep - all of these simple things that we have to do - we do it for that entity, our self. Even all of our thinking comes from that sense of the self as we know it.

When the notion of the self disappears, then what will we do and for whom?

That Great Unknown. What we call “God”. When the sense of the self merges with God, it disappears. Then everything that we do is for God.

There is no place for two  
Where there is God, there is no 'I'  
Where there is 'I', God is not there.
